

Curriculum Vitæ

# Dr. Martin HÖLZER

## PERSONAL DATA

---

Name: Dr. rer. nat. Martin Hölzer  
Gender: Male  
Nationality: German  
Family status: Married  
Place and Date of Birth: Rudolstadt, Germany | 16 March 1988  
Private Address: Jansonstr. 11, 07745 Jena  
Work Address: EMBL-EBI, Cambridge, UK  
Phone: +49 160 92675865  
Twitter: [@martinhoelzer](#)  
Email: [hoelzer.martin@gmail.com](mailto:hoelzer.martin@gmail.com)  
Code: [github.com/hoelzer](https://github.com/hoelzer)  
Web: [hoelzer-lab.github.io](https://hoelzer-lab.github.io)

## SCIENTIFIC EDUCATION

---

01/2018	<b>Doctorate degree, Dr. rer. nat.</b> University of Jena Grade: summa cum laude Doctoral thesis: <i>The Dark Art of Next-Generation Sequencing: fundamental approaches for genomics, transcriptomics, and differential gene expression</i> Prof. Dr. Manja Marz, RNA Bioinformatics and High-Throughput Analysis Faculty of Mathematics and Computer Sciences
since 01/2018	Team leader of an <a href="#">associated bioinformatics research group</a> at the University of Jena
08/2013–12/2017	PhD student at University of Jena
12/2012	<b>Diploma in Bioinformatics</b> University of Jena Grade: 1.4 Thesis: <i>Data management of mass spectra and fragmentation trees with BExIS</i> Prof. Dr. Sebastian Böcker, Chair of Bioinformatics Faculty of Mathematics and Computer Sciences
10/2007–12/2012	Studies of Bioinformatics at University of Jena
2006–2007	Civilian service, Diakonisches Altenhilfezentrum, Bad Blankenburg
1998–2006	University entrance qualification, Friedrich-Fröbel-Gymnasium, Bad Blankenburg, Grade 2.0

## WORK EXPERIENCE

---

Current	<b>Post-Doc &amp; team leader of an associated research group</b> <i>RNA Bioinformatics/High-Throughput Analysis, Prof. Dr. Manja Marz, University of Jena</i> Supervision of Next-Generation Sequencing (NGS) projects including the automatization of workflows for assembly, annotation, variant calling, differential gene expression, metagenomics, and visualization of results. Development of novel applications for long-read sequencing data. Team leader of an associated and <a href="#">fresh bioinformatics group</a> at the University of Jena.
10/2019–04/2020	<b>Visiting Researcher</b> <i>EMBL-EBI European Bioinformatics Institute, Dr. Rob Finn, Wellcome Trust Genome Campus, Hinxton, Cambridge, United Kingdom</i> Working in the <a href="#">research group</a> of Dr. Rob Finn on the analysis and classification of metagenomic samples using Nanopore long-read sequencing data and hybrid approaches.
since 06/2019	<b>nanozoo GmbH</b> <i>Co-founder and Co-managing director of nanozoo GmbH, Leipzig, Germany</i> Founded in mid-2019, <a href="#">nanozoo</a> is a small bioinformatics company providing end-to-end services for the production and analysis of microbial data. <i>nanozoo</i> has set itself the goal of removing barriers in bioinformatic data analysis to provide up-to-date standards and analyses to a broad mass of researchers.
since 03/2017	<b>EVBC member</b> <i>Founding member of the “European Virus Bioinformatics Center” (EVBC), University of Jena</i> The EVBC is intended to bring together virologists and bioinformaticians across Europe and provide a platform for interdisciplinary collaborative projects. My expertise covers sequencing, design and high-throughput analysis of virus-enriched and -infected biological samples.
08/2013–12/2017	<b>PhD student</b> <i>RNA Bioinformatics/High-Throughput Analysis, Prof. Dr. Manja Marz, University of Jena</i> Management of various NGS projects comprising 1) experimental design, 2) selection of appropriate sequencing parameters, and 3) data analysis, visualization and interpretation. Development of pipelines for downstream bioinformatical analyses. Examination of (meta-)genomic/transcriptomic data with a special focus on <i>de novo</i> assembly, annotation, and identification of differentially expressed protein- and non-coding genes. Contributions to the emerging field of virus bioinformatics.
09/2009–05/2012	<b>Student assistant</b> <i>Chair of Bioinformatics, Prof. Dr. Sebastian Böcker, University of Jena</i> Integration of algorithms, data management and visualization for phylogenetic analyses and clustering.

## TASKS BEYOND OWN RESEARCH

---

- **Next-Generation Sequencing**  
Management of more than 50 Next-Generation Sequencing projects, including the design of experimental set-ups and the definition of sequencing parameters. Calculation of project costs and communication between the wet lab partners and the sequencing facility. Organization of data handling and computational analysis.
- **Advisory board memberships**  
Member of the external advisory board of the EU project “Digital Skills on Computational Biology for Health Professionals” ([BioS](#))
- **Supervision of bachelor theses**  
Sandra Triebel, *A comparison of short-read, long-read, and hybrid de novo genome assembly tools for the reconstruction of Mycoplasma bovis strains.* (completed autumn 2019)

Jannes Spangenberg, *Analysis of host-virus transcriptome data: exploring the unmapped*. (completed autumn 2019), co-supervised  
Rebekka Köhl, *RNA-Seq analysis of a transfected human cell line*. (started 07/2018)

- **Supervision of practical works**

Anne Muriel Christin Ritsch, *Transcribed endogenous viral elements in *Myotis lucifugus**. (completed summer 2019), co-supervised  
Lasse Faber, *Transcripto – A Snakemake de novo transcriptome assembly pipeline*. (completed spring 2019)  
Daria Meyer, *Endogenous Viral Elements (EVEs)*. (completed winter 2018), co-supervised

- **Supervision of master theses**

Lisa-Marie Barf, *Bioinformatic and in vitro comparison among *Chlamydia* spp. to elucidate chlamydial host specificity and phylogeny*. (completed 06/2019), co-supervised  
Lasse Faber, *Effective clustering of de novo transcriptome assemblies*. (completed winter 2019)  
Marie Lataretu, *Spotting fungal mitogenomes in de novo assemblies of short-read NGS data*. (completed summer 2018)  
Ruman Gerst, *PCAGO: An interactive web service to analyze RNA-Seq data with principal component analysis*. (completed fall 2017)

- **Organization of international conferences and meetings**

Hands-on workshop on Nanopore sequencing: Adventures in metagenomics and antimicrobial resistance, Indian Institute of Technology, Delhi, 2019: Instructor  
23<sup>rd</sup> International Bioinformatics Workshop on Virus Evolution and Molecular Epidemiology (VEME), 2018: Supporting Organizer  
Hackathon on aging-related data, *Stay Young or Die Trying*, 2017: Supporting Organizer  
First Meeting of the *European Virus Bioinformatics Centre*, 2017: Supporting Organizer  
Hackathon on virus infected RNA-Seq data, *Fight against Ebola – in silico*, 2014: Organizer

- **Peer-reviews for international conferences**

Annual International Conference on Research in Comp. Molecular Biology (RECOMB 2018)  
Annual International Conference on Intelligent Systems for Molecular Biology (ISMB 2017)  
German Conference on Bioinformatics (GCB 2014, 2015, 2017)

- **Peer-reviews for journals**

Nature Communications (2019), Microbiome (2019), Genome Biology (2019), BMC Supplements (2019), Scientific Reports (2019), Frontiers in Microbiology (2019), Virus Research (2018), Molecular Ecology Resources (2018)  
Publons: [publons.com/author/1521002](https://publons.com/author/1521002)

- **Third-party funding applications**

Assistance in writing research grants for third-party funding (DFG, SPP, ERC)  
Submission of a first own DFG "Sachbeihilfe" grant in November 2019 that is currently under revision.

## SCHOLARSHIPS

---

DEC. 2018 – JAN. 2021 "Add-on Fellowship for Interdisciplinary Life Science" of €12,500  
the Joachim Herz Stiftung

## GRANTS

		Amount
2020 – 2025	<p>“Digitisation of the life sciences: Ways into the future”</p> <p>We receive €1.35 million from the <i>Thuringian Ministry of Science</i> to advance the digitization of life sciences. The project will start in 2020 and is initially scheduled for five years. I was jointly responsible for the application and significantly involved in the compilation of the contents and the writing.</p>	–
DEC. 2018 – DEC. 2019	Program of the University of Jena to support junior researchers in obtaining third-party funding	€ 9,930

## TEACHING

at the University of Jena

### Teaching instructor

2018, 2019	<p><b>Practical course: VIROINFORMATICS</b></p> <p><i>Responsibilities:</i> Prepared, supervised, and assisted students in a two-week practical course on the topic of virus detection from meta-transcriptomic NGS data.</p>
2017, 2017/18 2018	<p><b>Lecture &amp; Practical course: L<sup>A</sup>T<sub>E</sub>X BASICS FOR NATURAL SCIENTISTS</b></p> <p><i>Responsibilities:</i> Presented lectures on the document preparation system L<sup>A</sup>T<sub>E</sub>X. Supervised and assisted 30 undergraduate students in a one-week full-time course. Graded daily assignments, exercises, and exams.</p>
2017/18	<p><b>Practical course: HIGH-THROUGHPUT BIOINFORMATICS</b></p> <p><i>Responsibilities:</i> Prepared, supervised, and assisted students in a two-week practical course on the topic of RNA-Seq data analysis.</p>

### Teaching assistant

2016/17, 2017/18 2018/19	<p><b>Lecture: BASIC BIOINFORMATIC APPLICATIONS</b></p> <p><i>Responsibilities:</i> Prepared and taught four 1.5-hour lectures on the topic of high-throughput data analysis and assembly (<i>From raw read data to differential expressed genes</i>). Prepared and supervised practical examples. Graded assignments and course exams.</p>
2014/15, 2015, 2016, 2017	<p><b>Lecture: VIRUS BIOINFORMATICS</b></p> <p><i>Responsibilities:</i> Developed and taught hour-long lessons on viral replication, assembly, and sequencing.</p>
2014/15, 2015/16, 2016/17, 2017/18	<p><b>Lecture: HIGH-THROUGHPUT BIOINFORMATICS</b></p> <p><i>Responsibilities:</i> Developed and taught hour-long lessons on sequencing technologies and protocols, Next-Generation Sequencing design, quality control and data processing, <i>de novo</i> and reference-based assembly, read quantification, normalization, and differential gene expression analysis.</p>
2015/16, 2018/19	<p><b>Practical course: HIGH-THROUGHPUT BIOINFORMATICS</b></p> <p><i>Responsibilities:</i> Prepared, supervised, and assisted students in a one-week practical course on the topic of RNA-Seq data analysis.</p>

## SCIENTIFIC POSTER PRESENTATIONS

03/2019	3rd annual meeting of the European Virus Bioinformatics Center (EVBC), Glasgow, Scotland <i>Virus- and interferon alpha-induced transcriptomes of the microbat Myotis daubentonii.</i>
03/2019	29th Annual Meeting of the Society for Virology, Düsseldorf, Germany <i>Virus- and interferon alpha-induced transcriptomes of the microbat Myotis daubentonii.</i>
09/2018	German Conference on Bioinformatics, Vienna, Austria <i>Long reads matter: The advantages of nanopore long-read sequencing.</i>
05/2017	Bioinformatics Mittelerde Meeting, Leipzig, Germany <i>PoSeiDon: a web server for the detection of evolutionary recombination events and positive selection.</i>
03/2017	27th Annual Meeting of the Society for Virology, Marburg, Germany <i>PoSeiDon: a web server for the detection of evolutionary recombination events and positive selection.</i>
04/2016	26th Annual Meeting of the Society for Virology, Münster, Germany <i>A method pipeline for the detection of positively selected sites in silico – exemplarily shown for bat Mx1.</i>

## SCIENTIFIC ORAL PRESENTATIONS

01/2020	EMBL-EBI research talk, Hinxton, Cambridge, UK <i>Nanopore long-read metagenomics: How long reads improve microbial and phage genomes from a complex aquifer system</i>
11/2018	BioGeo-Colloquium, Jena, Germany <i>The advantages of nanopore sequencing: because long reads matter</i>
11/2018	Institut für Mikrobiologie der Bundeswehr, Munich, Germany <i>A short and a long sequencing story about Ebola and Coronaviruses</i>
10/2018	16. Herbstseminar der Bioinformatik, Doubice, Czech Republic Session chair on virus bioinformatics
07/2018	11th International Conference on Virology/Microbiology, Vancouver, Canada <i>An Interface between Bioinformatics and Virology (KEYNOTE SPEAKER)</i>
02/2018	33. Winterseminar der Bioinformatik, Bled, Slovenia <i>PCAGO: An interactive web service to analyze RNA-Seq data with principal component analysis</i>
08/2017	CRC AquaDiva Recruitment Symposium, Jena, Germany <i>Next-Generation Sequencing meets viruses</i>
02/2017	32. Winterseminar der Bioinformatik, Bled, Slovenia <i>PoSeiDon: A web server for the detection of evolutionary recombination events and positive selection</i>
10/2016	14. Herbstseminar der Bioinformatik, Doubice, Czech Republic <i>Fun with PCA: Insights into RNA-Seq based principal component analysis</i>
02/2016	31. Winterseminar der Bioinformatik, Bled, Slovenia <i>Evolutionary analyses of positively selected sites in the interferon-induced innate immunity factor Mx1 of bats</i>
03/2015	25th Annual Meeting of the Society for Virology, Bochum, Germany <i>Differential transcriptional responses to Ebola and Marburg virus infection in cells from bats and humans</i>
02/2015	30. Winterseminar der Bioinformatik, Bled, Slovenia <i>Fight against Ebola – in silico –</i>

## CITATION ANALYSIS

## Submitted journal publications & preprints

W. A. Overholt, **M. Hölzer**, P. Geesink, C. Diezel, M. Marz, and K. Küsel. Inclusion of Oxford Nanopore long reads improves all microbial and phage metagenome-assembled genomes from a complex aquifer system. *bioRxiv*. [10.1101/2019.12.18.880807v1](https://doi.org/10.1101/2019.12.18.880807v1), 2019.

A. Viehweger, **M. Hölzer**, and C. Brandt. Addressing dereplication crisis: Taxonomy-free reduction of massive genome collections using embeddings of protein content. *bioRxiv*. [10.1101/855262v2](https://doi.org/10.1101/855262v2), 2019.

R. Gerst and **M. Hölzer**. PCAGO: An interactive web service to analyze RNA-Seq data with principal component analysis. *bioRxiv*. [doi.org/10.1101/433078](https://doi.org/10.1101/433078), 2018.

## Book chapter

**M. Hölzer** and M. Marz. Chapter Nine – Software Dedicated to Virus Sequence Analysis “Bioinformatics Goes Viral”. *Adv Virus Res.* (ed. M. Beer), 99:233-257, Academic Press, 2017.

## Theses

**M. Hölzer**. The Dark Art of Next-Generation Sequencing: fundamental approaches for genomics, transcriptomics, and differential gene expression. *PhD thesis*, University of Jena, 2018.

**M. Hölzer**. Data management of mass spectra and fragmentation trees with BExIS. *Diploma thesis*, in German, University of Jena, 2012.

## SOFT SKILLS

---

06/2019	<i>Managing a Bioinformatics Core Facility</i> , European Bioinformatics Institute (EMBL-EBI), Hinxton, UK
07/2018	<i>Fördermöglichkeiten für exzellente Nachwuchswissenschaftler/innen</i> , Dr. Mareile Knees, Jena
05/2018	<i>Workshop “Drittmittel einwerben”</i> , Jana Dümmmler, Graduate Academy, Jena
02/2018	<i>Patente als Chance für meine Forschung</i> , Dr. Christian Liutik, Patentinformationszentrum FSU, Jena
02/2018	<i>Pursuing an Academic Career in Germany: Pros and Cons</i> , Dr. Hanna Kauhaus, Graduate Academy, Jena
02/2018	<i>Proposal Writing Workshop</i> , Frank Lauterbach, iRTG AquaDiva, Jena

03/2014	<i>Mitteldeutscher Fundraisingtag</i> , Crowdfunding: Chancen und Grenzen, FundraisingForum e.V., Jena
04/2013	<i>Jugendgruppenleiter Card (JuLeiCa)</i> , nationwide uniform identity card for voluntary people in youth work, VTPV e.V., Bad Blankenburg
03/2012	<i>Mitteldeutscher Fundraisingtag</i> , Fundraising und Freiwillige: wie passt das zusammen? FundraisingForum e.V., Jena
09/2010	<i>Web 2.0 – für Vereine, Initiativen &amp; Parteien</i> , Thomas Mergen, Friedrich-Naumann-Stiftung für die Freiheit, Erfurt
since 2002	Various workshops, seminars, and advanced trainings about time and group management, group dynamics, self-motivation, project planning, association and employment law, speech, presentation, administration, and building management.

## LEADERSHIP EXPERIENCES & NON-SCIENTIFIC ACTIVITIES

### Scout association “Bund der Pfadfinderinnen und Pfadfinder” (BdP)

since 2019	<i>Management board member of “VTPV” registered society</i> Administrative tasks and representation of the scout activities in Thuringia.
since 2012	<i>Management board member of “Scoutactive” registered society</i> Administrative tasks and writing of proposals for staff funding.
since 2008	<i>Assistant manager of BdP scouting center of Thuringia</i> Administrative tasks, coordination of staff and volunteers, realization of adventure activities for kids and youths, technical support, web site and hardware supervision.
since 2007	<i>Assistant leader of BdP “Landesverband Thüringen e.V.”</i> Organization of scout activities in Thuringia and across national borders. Organized events, trainings, and elections.
2005–2015	<i>Group leader of BdP scout tribe “Falken vom Greifenstein”</i> Administration of the association. Active participation and mainly responsible for the management and organization of various scout camps, international cooperations, and regular meetings. Managed team conflict and morale, represented the association at national and international events.
since 1998	<i>Member of BdP</i>

### Water of Life

2019/20	<i>Member of the Cambridge University Whisky Appreciation Society</i>
since 2017	<i>Co-Founder and organizer of the Bad Blankenburger “Kessel-Treffen”</i> Coordination of Scottish events and whisky tastings, <a href="http://www.kessel-treffen.de">www.kessel-treffen.de</a> .
since 2014	<i>Whisky tastings</i> Preparation and execution of whisky tastings for beginner and advanced

### Music

since 1999	<i>Piano</i>
------------	--------------

## LANGUAGES

<b>German</b>	Native language
<b>English</b>	Written and spoken fluently
