

Curriculum Vitæ

Dr. Martin HÖLZER

PERSONAL DATA

Name: Dr. rer. nat. Martin Hölzer
Gender: Male
Nationality: German
Family status: Married
Place and Date of Birth: Rudolstadt, Germany | 16 March 1988
Private Address: Jansonstr. 11, 07745 Jena
Work Address: EMBL-EBI, Cambridge, UK
Phone: +49 160 92675865
Twitter: [@martinhoelzer](#)
Email: hoelzer.martin@gmail.com
Code: github.com/hoelzer
Web: hoelzer-lab.github.io

SCIENTIFIC EDUCATION

01/2018	Doctorate degree, Dr. rer. nat. University of Jena Grade: <i>summa cum laude</i> Doctoral thesis: <i>The Dark Art of Next-Generation Sequencing: fundamental approaches for genomics, transcriptomics, and differential gene expression</i> Prof. Dr. Manja Marz, RNA Bioinformatics and High-Throughput Analysis Faculty of Mathematics and Computer Sciences
since 01/2018	Team leader of an associated bioinformatics research group at the University of Jena
08/2013–12/2017	PhD student at University of Jena
12/2012	Diploma in Bioinformatics University of Jena Grade: 1.4 Thesis: <i>Data management of mass spectra and fragmentation trees with BExIS</i> Prof. Dr. Sebastian Böcker, Chair of Bioinformatics Faculty of Mathematics and Computer Sciences
10/2007–12/2012	Studies of Bioinformatics at University of Jena
2006–2007	Civilian service, Diakonisches Altenhilfezentrum, Bad Blankenburg
1998–2006	University entrance qualification, Friedrich-Fröbel-Gymnasium, Bad Blankenburg, Grade 2.0

MAIN AREAS OF RESEARCH

- Bioinformatics
- High-Throughput Sequencing
- Metagenomics and -transcriptomics
- *De novo* assembly and annotation
- Transcriptomics and comparative genomics
- Non-coding RNAs
- Microbes and viruses
- Oxford Nanopore Sequencing
- Automation and visualization
- Containerization and workflow management

WORK EXPERIENCE

Current	Post-doc & team leader of an associated research group <i>RNA Bioinformatics/High-Throughput Analysis, Prof. Dr. Manja Marz, University of Jena</i> Supervision of Next-Generation Sequencing (NGS) projects including the automatization of workflows for assembly, annotation, variant calling, differential gene expression, metagenomics, and visualization of results. Development of novel applications for long-read sequencing data. Team leader of an associated bioinformatics group at the University of Jena.
10/2019–04/2020	Visiting researcher <i>EMBL-EBI European Bioinformatics Institute, Dr. Rob Finn, Wellcome Trust Genome Campus, Hinxton, Cambridge, United Kingdom</i> Working in the research group of Dr. Rob Finn on the analysis and classification of metagenomic samples using Nanopore long-read sequencing data and hybrid approaches.
since 06/2019	nanozoo GmbH <i>Co-founder and Co-managing director of nanozoo GmbH, Leipzig, Germany</i> Founded in mid-2019, nanozoo is a bioinformatics start-up providing end-to-end services for the production and analysis of microbial data. <i>nanozoo</i> has set itself the goal of removing barriers in bioinformatic data analysis to provide up-to-date standards and analyses to a broad mass of researchers.
08/2013–12/2017	PhD student <i>RNA Bioinformatics/High-Throughput Analysis, Prof. Dr. Manja Marz, University of Jena</i> Management of various NGS projects comprising 1) experimental design, 2) selection of appropriate sequencing parameters, and 3) data analysis, visualization and interpretation. Development of pipelines for downstream bioinformatical analyses. Examination of (meta-)genomic/transcriptomic data with a special focus on <i>de novo</i> assembly, annotation, and identification of differential expressed protein- and non-coding genes. Contributions to the emerging field of virus bioinformatics.
09/2009–05/2012	Student assistant <i>Chair of Bioinformatics, Prof. Dr. Sebastian Böcker, University of Jena</i> Integration of algorithms, data management and visualization for phylogenetic analyses and clustering.

PROFESSIONAL MEMBERSHIPS

since 01/2020	iRTG AquaDiva <i>Post-doc representative within the “integrated Research Training Group” (iRTG) of the CRC AquaDiva, University of Jena</i> The iRTG provides a structured training program for training and education open to doctoral and postdoctoral researchers of the CRC AquaDiva. It offers courses that bring together the fields of hydrology, geology, and biogeochemistry with omic technologies and bioinformatics.
since 06/2019	BioS <i>Member of the external advisory board of the EU project “Digital Skills on Computational Biology for Health Professionals” (www.bios-project.eu)</i> BioS aims at advancing the digital skills of medical doctors through the design, development and delivery of new modular vocational curricula on Computational Biology & Bioinformatics. As a member of the advisory board I am supporting the project by giving advice on the main outcomes of the project.
since 03/2017	EVBC <i>Founding member of the “European Virus Bioinformatics Center” (EVBC), University of Jena</i> The EVBC is intended to bring together virologists and bioinformaticians across Europe and provide a platform for interdisciplinary collaborative projects. My expertise covers sequencing, design and high-throughput analysis of virus-enriched and -infected biological samples.

ORGANIZATION OF CONFERENCES AND WORKSHOPS

11/2019	Workshop: HANDS-ON NANOPORE SEQUENCING: ADVENTURES IN METAGENOMICS AND ANTIMICROBIAL RESISTANCE <i>Responsibilities:</i> Prepared workshop. Co-supervised and assisted students in a one-week practical course on the topic of Nanopore sequencing and metagenomics data analysis.	IIT, New Delhi, India
10/2018	Workshop: BIOINFORMATICS ANALYSIS OF NANOPORE SEQUENCING DATA: AN INTRODUCTION <i>Responsibilities:</i> Co-prepared workshop and assisted students in a two-day practical course on the topic of Nanopore sequencing data analysis.	Doubice, Czech Republic
08/2018	Workshop: 23rd INTERNATIONAL BIOINFORMATICS WORKSHOP ON VIRUS EVOLUTION AND MOLECULAR EPIDEMIOLOGY (VEME) <i>Responsibilities:</i> Supporting organizer. Logistical tasks.	RKI, Berlin
05/2017	Hackathon: AGING-RELATED RNA-SEQ DATA ANALYSIS STAY YOUNG OR DIE TRYING <i>Responsibilities:</i> Supporting organizer of this one-week hackathon. Logistical tasks.	University of Jena
01/2017	Conference: FIRST MEETING OF THE EUROPEAN VIRUS BIOINFORMATICS CENTER <i>Responsibilities:</i> Supporting organizer. Logistical tasks.	University of Jena
04/2014	Hackathon: VIRUS-INFECTED RNA-SEQ DATA ANALYSIS FIGHT AGAINST EBOLA – IN SILICO <i>Responsibilities:</i> Prepared a one-week collaborative workshop as a main organizer and assisted participants in data analysis.	University of Jena

FURTHER TASKS BEYOND OWN RESEARCH

- **Sequencing project management**

Management of more than 60 Next-Generation Sequencing projects, including the design of experimental set-ups and the definition of sequencing parameters. Calculation of project costs and communication between the wet lab partners and the sequencing facility. Organization of data handling and computational analysis.

- **Supervision of master theses**

- Lisa-Marie Barf, *Bioinformatic and in vitro comparison among Chlamydia spp. to elucidate chlamydial host specificity and phylogeny*. (completed 06/2019), co-supervised
- Lasse Faber, *Effective clustering of de novo transcriptome assemblies*. (completed winter 2019)
- Marie Lataretu, *Spotting fungal mitogenomes in de novo assemblies of short-read NGS data*. (completed summer 2018)
- Ruman Gerst, *PCAGO: An interactive web service to analyze RNA-Seq data with principal component analysis*. (completed fall 2017)

- **Supervision of practical works**

- Anne Muriel Christin Ritsch, *Transcribed endogenous viral elements in Myotis lucifugus*. (completed summer 2019), co-supervised
- Lasse Faber, *Transcripto – A Snakemake de novo transcriptome assembly pipeline*. (completed spring 2019)
- Daria Meyer, *Endogenous Viral Elements (EVEs)*. (completed winter 2018), co-supervised

- **Supervision of bachelor theses**

- Sandra Triebel, *A comparison of short-read, long-read, and hybrid de novo genome assembly tools for the reconstruction of Mycoplasma bovis strains*. (completed autumn 2019)
- Jannes Spangenberg, *Analysis of host-virus transcriptome data: exploring the unmapped*. (completed autumn 2019), co-supervised
- Rebekka Köhl, *RNA-Seq analysis of a transfected human cell line*. (started 07/2018)

- **Peer-reviews for international conferences**

Annual International Conference on Research in Comp. Molecular Biology (RECOMB 2018), Annual International Conference on Intelligent Systems for Molecular Biology (ISMB 2017), German Conference on Bioinformatics (GCB 2014, 2015, 2017)

- **Peer-reviews for journals**

Nature Communications (2019), Microbiome (2019), Genome Biology (2019), BMC Supplements (2019), Scientific Reports (2019), Frontiers in Microbiology (2019), Virus Research (2018), Molecular Ecology Resources (2018)
publons.com/author/1521002

SCHOLARSHIPS

JAN. 2020 – JAN. 2021	“Google for Education” Google Cloud Platform research credits for cloud calculations for a research proposal	€ 5,000
DEC. 2018 – JAN. 2021	“Add-on Fellowship for Interdisciplinary Life Science” of the Joachim Herz Stiftung, Hamburg, Germany	€ 12,500

GRANTS

		Amount
under consideration	DFG Sachbeihilfe first application “Reference- and assembly-free identification of differentially expressed isoforms by combining traditional short-read and Nanopore long-read direct RNA sequencing” Applied for € 242,658.00 for staff and € 50,550.00 for direct project costs	–
2020 – 2025	Thuringian Ministry of Science “Digitisation of the life sciences: Ways into the future”. The University of Jena received €1.35 million to advance the digitization of life sciences. I was jointly responsible for the application and significantly involved in the compilation of the contents and the writing. Co-supervision of work packages and project partner (digleben.uni-jena.de/projektpartner).	–
DEC. 2018 – MAR. 2020	Program of the University of Jena to support junior researchers in obtaining third-party funding	€ 9,930

TEACHING

at the University of Jena

Teaching instructor

2018, 2019	Practical course: VIROINFORMATICS <i>Responsibilities:</i> Prepared, supervised, and assisted students in a two-week practical course on the topic of virus detection from meta-transcriptomic NGS data.
2017, 2017/18 2018	Lecture & Practical course: L^AT_EX BASICS FOR NATURAL SCIENTISTS <i>Responsibilities:</i> Presented lectures on the document preparation system L ^A T _E X. Supervised and assisted 30 undergraduate students in a one-week full-time course. Graded daily assignments, exercises, and exams.
2017/18	Practical course: HIGH-THROUGHPUT BIOINFORMATICS <i>Responsibilities:</i> Prepared, supervised, and assisted students in a two-week practical course on the topic of RNA-Seq data analysis.

Teaching assistant

2016/17, 2017/18 2018/19	Lecture: BASIC BIOINFORMATIC APPLICATIONS <i>Responsibilities:</i> Prepared and taught four 1.5-hour lectures on the topic of high-throughput data analysis and assembly (<i>From raw read data to differential expressed genes</i>). Prepared and supervised practical examples. Graded assignments and course exams.
2014/15, 2015, 2016, 2017	Lecture: VIRUS BIOINFORMATICS <i>Responsibilities:</i> Developed and taught hour-long lessons on viral replication, assembly, and sequencing.
2014/15, 2015/16, 2016/17, 2017/18	Lecture: HIGH-THROUGHPUT BIOINFORMATICS <i>Responsibilities:</i> Developed and taught hour-long lessons on sequencing technologies and protocols, Next-Generation Sequencing design, quality control and data processing, <i>de novo</i> and reference-based assembly, read quantification, normalization, and differential gene expression analysis.
2015/16, 2018/19	Practical course: HIGH-THROUGHPUT BIOINFORMATICS <i>Responsibilities:</i> Prepared, supervised, and assisted students in a one-week practical course on the topic of RNA-Seq data analysis.

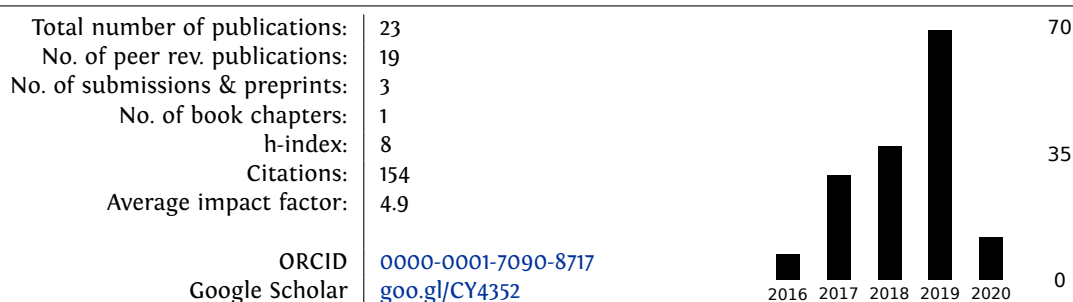

SCIENTIFIC POSTER PRESENTATIONS

03/2019	3rd annual meeting of the European Virus Bioinformatics Center (EVBC), Glasgow, Scotland <i>Virus- and interferon alpha-induced transcriptomes of the microbat Myotis daubentonii.</i>
03/2019	29th Annual Meeting of the Society for Virology, Düsseldorf, Germany <i>Virus- and interferon alpha-induced transcriptomes of the microbat Myotis daubentonii.</i>
09/2018	German Conference on Bioinformatics, Vienna, Austria <i>Long reads matter: The advantages of nanopore long-read sequencing.</i>
05/2017	Bioinformatics Mittelerde Meeting, Leipzig, Germany <i>PoSeiDon: a web server for the detection of evolutionary recombination events and positive selection.</i>
03/2017	27th Annual Meeting of the Society for Virology, Marburg, Germany <i>PoSeiDon: a web server for the detection of evolutionary recombination events and positive selection.</i>
04/2016	26th Annual Meeting of the Society for Virology, Münster, Germany <i>A method pipeline for the detection of positively selected sites in silico – exemplarily shown for bat Mx1.</i>

SCIENTIFIC ORAL PRESENTATIONS

01/2020	EMBL-EBI research talk, Hinxton, Cambridge, UK <i>Nanopore long-read metagenomics: How long reads improve microbial and phage genomes from a complex aquifer system</i>	slideShare
11/2018	BioGeo-Colloquium, Jena, Germany <i>The advantages of nanopore sequencing: because long reads matter</i>	
11/2018	Institut für Mikrobiologie der Bundeswehr, Munich, Germany <i>A short and a long sequencing story about Ebola and Coronaviruses</i>	
10/2018	16. Herbstseminar der Bioinformatik, Doubice, Czech Republic Session chair on virus bioinformatics	
07/2018	11th International Conference on Virology/Microbiology, Vancouver, Canada <i>An Interface between Bioinformatics and Virology (KEYNOTE SPEAKER)</i>	
02/2018	33. Winterseminar der Bioinformatik, Bled, Slovenia <i>PCAGO: An interactive web service to analyze RNA-Seq data with principal component analysis</i>	
08/2017	CRC AquaDiva Recruitment Symposium, Jena, Germany <i>Next-Generation Sequencing meets viruses</i>	
02/2017	32. Winterseminar der Bioinformatik, Bled, Slovenia <i>PoSeiDon: A web server for the detection of evolutionary recombination events and positive selection</i>	
10/2016	14. Herbstseminar der Bioinformatik, Doubice, Czech Republic <i>Fun with PCA: Insights into RNA-Seq based principal component analysis</i>	
02/2016	31. Winterseminar der Bioinformatik, Bled, Slovenia <i>Evolutionary analyses of positively selected sites in the interferon-induced innate immunity factor Mx1 of bats</i>	
03/2015	25th Annual Meeting of the Society for Virology, Bochum, Germany <i>Differential transcriptional responses to Ebola and Marburg virus infection in cells from bats and humans</i>	
02/2015	30. Winterseminar der Bioinformatik, Bled, Slovenia <i>Fight against Ebola – in silico –</i>

SOFT SKILLS

06/2019	<i>Managing a Bioinformatics Core Facility</i> , European Bioinformatics Institute (EMBL-EBI), Hinxton, UK
07/2018	<i>Fördermöglichkeiten für exzellente Nachwuchswissenschaftler/innen</i> , Dr. Mareile Knees, Jena
05/2018	<i>Workshop "Drittmittel einwerben"</i> , Jana Dümmler, Graduate Academy, Jena
02/2018	<i>Patente als Chance für meine Forschung</i> , Dr. Christian Liutik, Patentinformationszentrum FSU, Jena
02/2018	<i>Pursuing an Academic Career in Germany: Pros and Cons</i> , Dr. Hanna Kauhaus, Graduate Academy, Jena
02/2018	<i>Proposal Writing Workshop</i> , Frank Lauterbach, iRTG AquaDiva, Jena
03/2014	<i>Mitteldeutscher Fundraisingtag</i> , Crowdfunding: Chancen und Grenzen, FundraisingForum e.V., Jena
04/2013	<i>Jugendgruppenleiter Card (JuLeiCa)</i> , nationwide uniform identity card for voluntary people in youth work, VTPV e.V., Bad Blankenburg
03/2012	<i>Mitteldeutscher Fundraisingtag</i> , Fundraising und Freiwillige: wie passt das zusammen? FundraisingForum e.V., Jena
09/2010	<i>Web 2.0 – für Vereine, Initiativen & Parteien</i> , Thomas Mergen, Friedrich-Naumann-Stiftung für die Freiheit, Erfurt
since 2002	Various workshops, seminars, and advanced trainings about time and group management, group dynamics, self-motivation, project planning, association and employment law, speech, presentation, administration, and building management.

NON-SCIENTIFIC LEADERSHIP EXPERIENCES & ACTIVITIES

Scout association "Bund der Pfadfinderinnen und Pfadfinder" (BdP)

since 2019	<i>Management board member of "VTPV" registered society</i> Administrative tasks and representation of the scout activities in Thuringia.
since 2012	<i>Management board member of "Scoutactive" registered society</i> Administrative tasks and writing of proposals for staff funding.
since 2008	<i>Assistant manager of BdP scouting center of Thuringia</i> Administrative tasks, coordination of staff and volunteers, realization of adventure activities for kids and youths, technical support, web site and hardware supervision.
since 2007	<i>Assistant leader of BdP "Landesverband Thüringen e.V."</i> Organization of activities in Thuringia and across national borders. Organized events and elections.
2005–2015	<i>Group leader of BdP scout tribe "Falken vom Greifenstein"</i> Administration of the association. Management of scout camps, international cooperations, regular meetings. Represented the association at national and international events.
since 1998	<i>Member of BdP</i>

Water of Life

2019/20	<i>Member of the Cambridge University Whisky Appreciation Society</i>
since 2017	<i>Co-Founder and organizer of the Bad Blankenburger "Kessel-Treffen"</i> Coordination of Scottish events and whisky tastings, kessel-treffen.de .
since 2014	<i>Whisky tastings</i> Preparation and execution of whisky tastings for beginner and advanced

Music

since 1999	<i>Piano</i>
