

Dr. Martin Hölzer

PERSONAL DATA

Name: Dr. rer. nat. Martin Hölzer

Gender: Male Nationality: German Family status: Married

Place and Date of Birth: Rudolstadt, Germany | 16 March 1988

Work Address: RKI, Nordufer 20, 13353 Berlin

Twitter: @martinhoelzer Code: github.com/hoelz Web: hoelzer.github.io github.com/hoelzer

SCIENTIFIC EDUCATION

01/2018 Doctorate degree, Dr. rer. nat.

University of Jena

Grade: summa cum laude

Doctoral thesis: The Dark Art of Next-Generation Sequencing: fundamental approaches for genomics, transcriptomics, and differential gene expression Prof. Dr. Manja Marz, RNA Bioinformatics and High-Throughput Analysis

Faculty of Mathematics and Computer Sciences

01/2018-07/2020

Team leader of an associated bioinformatics research group at the University of Jena

08/2013-12/2017 PhD student at University of Jena

> 12/2012 **Diploma in Bioinformatics**

> > University of Jena

Grade: 1.4

Thesis: Data management of mass spectra and fragmentation trees with BEXIS

Prof. Dr. Sebastian Böcker, Chair of Bioinformatics Faculty of Mathematics and Computer Sciences

10/2007-12/2012 Studies of Bioinformatics at University of Jena

2006-2007 Civilian service, Diakonisches Altenhilfezentrum, Bad Blankenburg

1998-2006 University entrance qualification, Friedrich-Fröbel-Gymnasium, Bad Blankenburg, Grade 2.0

MAIN AREAS OF RESEARCH

- Bioinformatics
- High-Throughput Sequencing
- Metagenomics and -transcriptomics
- De novo assembly and annotation
- Transcriptomics and comparative genomics
- · Non-coding RNAs
- · Microbes and viruses
- Oxford Nanopore Sequencing
- · Automation and visualization
- Containerization and workflow management

WORK EXPERIENCE

since 08/2020

Researcher at RKI

Methodology and Research Infrastructure, Bioinformatics MF1, Robert Koch Institute, Berlin Bioinformatics researcher at the RKI, computational analyses of Next-Generation Sequencing (NGS) data in the context of pathogen detection. Research focus on the application of Nanopore real-time sequencing for molecular surveillance.

01/2018-07/2020

Post-doc & team leader of an associated research group

RNA Bioinformatics/High-Throughput Analysis, Prof. Dr. Manja Marz, University of Jena Supervision of NGS projects including the automatization of workflows for assembly, annotation, variant calling, differential gene expression, metagenomics, and visualization of results. Development of novel applications for long-read sequencing data. Team leader of an associated bioinformatics group at the University of Jena.

10/2019-03/2020

Visiting researcher

EMBL-EBI European Bioinformatics Institute, Dr. Rob Finn, Wellcome Trust Genome Campus, Hinxton, Cambridge, United Kingdom

Working in the research group of Dr. Rob Finn on the analysis and classification of metagenomic samples using Nanopore long-read sequencing data and hybrid approaches.

08/2013-12/2017

PhD student

RNA Bioinformatics/High-Throughput Analysis, Prof. Dr. Manja Marz, University of Jena Management of various NGS projects comprising 1) experimental design, 2) selection of appropriate sequencing parameters, and 3) data analysis, visualization and interpre-

of appropriate sequencing parameters, and 3) data analysis, visualization and interpretation. Development of pipelines for downstream bioinformatical analyses. Examination of (meta-)genomic/transcriptomic data with a special focus on *de novo* assembly, annotation, and identification of differential expressed protein- and non-coding genes. Contributions to the emerging field of virus bioinformatics.

09/2009-05/2012

Student assistant

Chair of Bioinformatics, Prof. Dr. Sebastian Böcker, University of Jena Integration of algorithms, data management and visualization for phylogenetic analyses

and clustering.

PROFESSIONAL MEMBERSHIPS

01/2020-07/2020

iRTG AquaDiva

Post-doc representative within the "integrated Research Training Group" (iRTG) of the CRC AquaDiva, University of Jena

The iRTG provides a structured training program for training and education open to doctoral and postdoctoral researchers of the CRC AquaDiva. It offers courses that bring together the fields of hydrology, geology, and biogeochemistry with omic technologies and bioinformatics.

since 06/2019

BioS

Member of the external advisory board of the EU project "Digital Skills on Computational Biology for Health Professionals" (www.bios-project.eu)

BioS aims at advancing the digital skills of medical doctors through the design, development and delivery of new modular vocational curricula on Computational Biology & Bioinformatics. As a member of the advisory board I am supporting the project by giving advice on the main outcomes of the project.

since 03/2017

EVBC

Founding member of the "European Virus Bioinformatics Center" (EVBC), University of Jena The EVBC is intended to bring together virologists and bioinformaticians across Europe and provide a platform for interdisciplinary collaborative projects. My expertise covers sequencing, design and high-throughput analysis of virus-enriched and -infected biological samples.

ORGANIZATION OF CONFERENCES AND WORKSHOPS

| 11/2010 | Warkshan. | LIANDS ON | MANIODODE | CECHENICING. | ADVENITE |
|---------|-----------|-----------|-----------|--------------|----------|

IIT, New Delhi, India

METAGENOMICS AND ANTIMICROBIAL RESISTANCE

Responsibilitites: Prepared workshop. Co-supervised and assisted students in a one-week practical course on the topic of Nanopore sequencing and metagenomics data analysis.

10/2018

Workshop: BIOINFORMATICS ANALYSIS OF NANOPORE

Doubice, Czech Republic

SEQUENCING DATA: AN INTRODUCTION

Responsibilitites: Co-prepared workshop and assisted students in a two-day practical course on the topic of Nanopore sequencing data analysis.

08/2018

Workshop: 23^{rd} International Bioinformatics Workshop on Virus Evolution and Molecular Epidemiology (VEME)

RKI, Berlin

Describilities Commenting augminor Legistical teals

Responsibilitites: Supporting organizer. Logistical tasks.

05/2017

Hackathon: AGING-RELATED RNA-SEQ DATA ANALYSIS

University of Jena

STAY YOUNG OR DIE TRYING

Responsibilitites: Supporting organizer of this one-week hackathon. Logistical tasks.

01/2017

Conference: FIRST MEETING OF THE EUROPEAN VIRUS

University of Jena

BIOINFORMATICS CENTER

 ${\it Responsibilitites}: \ Supporting \ organizer. \ Logistical \ tasks.$

04/2014

Hackathon: VIRUS-INFECTED RNA-SEQ DATA ANALYSIS

University of Jena

FIGHT AGAINST EBOLA - IN SILICO

Responsibilitites: Prepared a one-week collaborative workshop as a main organizer and assisted participants in data analysis.

FURTHER TASKS BEYOND OWN RESEARCH

Sequencing project management

Management of more than 60 Next-Generation Sequencing projects, including the design of experimental set-ups and the definition of sequencing parameters. Calculation of project costs and communication between the wet lab partners and the sequencing facility. Organization of data handling and computational analysis.

• Peer-reviews for international conferences

Annual International Conference on Research in Comp. Molecular Biology (RECOMB 2018), Annual International Conference on Intelligent Systems for Molecular Biology (ISMB 2017), German Conference on Bioinformatics (GCB 2014, 2015, 2017)

Peer-reviews for journals

Briefings in Bioinformatics (2020), MDPI Viruses (2020), Nature Communications (2019), Microbiome (2019), Genome Biology (2019), BMC Supplements (2019), Scientific Reports (2019), Frontiers in Microbiology (2019), Virus Research (2018), Molecular Ecology Resources (2018)

SUPERVISION

| Master theses: | 4 |
|--|---|
| Bachlor theses: | 2 |
| Practical works/ research internships: | 4 |

Master theses

- Lisa-Marie Barf, Bioinformatic and in vitro comparison among Chlamydia spp. to elucidate chlamydial host specificity and phylogeny. (completed 06/2019), co-supervised
- Lasse Faber, Effective clustering of de novo transcriptome assemblies. (completed winter 2019)
- Marie Lataretu, Spotting fungal mitogenomes in de novo assemblies of short-read NGS data. (completed summer 2018)
- Ruman Gerst, *PCAGO*: An interactive web service to analyze RNA-Seq data with principal component analysis. (completed fall 2017)

Bachlor theses

- Sandra Triebel, *A comparison of short-read, long-read, and hybrid de novo genome assembly tools for the reconstruction of Mycoplasma bovis strains.* (completed autumn 2019)
- Jannes Spangenberg, *Analysis of host-virus transcriptome data: exploring the unmapped.* (completed autumn 2019), co-supervised

· Practical works/ research internships

- Kunaphas Kongkitimanon, Detection of antimicrobial peptides from large collections of publicly available RNA-Seq data. (completed winter 2020)
- Anne Muriel Christin Ritsch, *Transcribed endogenous viral elements in Myotis lucifugus*. (completed summer 2019), co-supervised
- Lasse Faber, *Transcripto A Snakemake de novo transcriptome assembly pipeline.* (completed spring 2019)
- Daria Meyer, Endogenous Viral Elements (EVEs). (completed winter 2018), co-supervised

SCHOLARSHIPS

| Mar. 2020 - Mar. 2021 | "Google for Education" Google Cloud Platform research credits for cloud calculations for a research proposal | € 5,000 |
|-----------------------|--|----------|
| DEC. 2018 - JAN. 2022 | "Add-on Fellowship for Interdisciplinary Life Science" of the Joachim Herz Stiftung, Hamburg, Germany | € 12,500 |

GRANTS

Amount
2020 - 2025 Thuringian Ministry of Science -

Thuringian Ministry of Science

"Digitisation of the life sciences: Ways into the future". The
University of Jena received €1.35 million to advance the digitization of life sciences. I was jointly responsible for the application and significantly involved in the compilation of the

contents and the writing. Co-supervision of work packages and project partner (digleben.uni-jena.de/projektpartner).

DEC. 2018 - MAR 2020 Program of the University of Jena to support junior researchers in obtaining third-party funding € 9,930

Teaching

at the University of Jena

Teaching instructor

2018, 2019 | Practical course: VIROINFORMATICS

Responsibilitites: Prepared, supervised, and assisted students in a two-week practical

course on the topic of virus detection from meta-transcriptomic NGS data.

2017, 2017/18

Lecture & Practical course: ETEX BASICS FOR NATURAL SCIENTISTS
2018

Responsibilities: Presented lectures on the document preparation system ETEX.

Responsibilitites: Presented lectures on the document preparation system ETEX. Supervised and assisted 30 undergraduate students in a one-week full-time course. Graded daily

assignments, excercises, and exams.

2017/18 Practical course: High-Throughput Bioinformatics

Responsibilitites: Prepared, supervised, and assisted students in a two-week practical

course on the topic of RNA-Seq data analysis.

Teaching assistant

2018/19

2016/17, 2017/18 | Lecture: Basic Bioinformatic applications

Responsibilities: Prepared and taught four 1.5-hour lectures on the topic of high-throughput data analysis and assembly (From raw read data to differential expressed genes).

Prepared and supervised practical examples. Graded assignments and course exams.

2014/15, 2015, Lecture: VIRUS BIOINFORMATICS

2016, 2017 Responsibilitites: Developed and taught hour-long lessons on viral replication, assembly,

and sequencing.

2014/15, 2015/16, | Lecture: HIGH-THROUGHPUT BIOINFORMATICS

2016/17, 2017/18 | Responsibilitites: Developed and taught hour-long lessons on sequencing technologies

and protocols, Next-Generation Sequencing design, quality control and data processing, de novo and reference-based assembly, read quantification, normalization, and differential

gene expression analysis.

2015/16, 2018/19 | Practical course: HIGH-THROUGHPUT BIOINFORMATICS

Responsibilitites: Prepared, supervised, and assisted students in a one-week practical

course on the topic of RNA-Seq data analysis.

Non-scientific Leadership Experiences & Activities

Scout association "Bund der Pfadfinderinnen und Pfadfinder" (BdP)

| since 2019 | Management board member of "VTPV" registered society |
|------------|---|
| | Administrative tasks and representation of the scout activities in Thuringia. |
| since 2012 | Management board member of "Scoutactive" registered society |
| | Administrative tasks and writing of proposals for staff funding. |
| since 2008 | Assistant manager of BdP scouting center of Thuringia |
| | Administrative tasks, coordination of staff and volunteers, realization of adventure activities for kids and youths, technical support, web site and hardware supervision. |
| since 2007 | Assistant leader of BdP "Landesverband Thüringen e.V." |
| | Organization of activities in Thuringia and across national borders. Organized events and elections. |
| 2005-2015 | Group leader of BdP scout tribe "Falken vom Greifenstein" |
| | Administration of the association. Management of scout camps, international cooperations, regular meetings. Represented the association at national and international events. |
| since 1998 | Member of BdP |
| | |

Water of Life

| | Member of the Cambridge University Whisky Appreciation Society |
|------------|---|
| since 2017 | Co-Founder and organizer of the Bad Blankenburger "Kessel-Treffen" |
| | Coordination of Scottish events and whisky tastings, kessel-treffen.de. |
| since 2014 | Whisky tastings |
| | Preparation and execution of whisky tastings for beginner and advanced |
| | |

Music

since 1999 | Piano

LANGUAGES

German

Native language Written and spoken fluently English
